Love to learn

Engaged workforce means
25% lower staff turnover

Happy employees are
12% more productive

Why use elearning games?

The power of games

"Games...are everything we say should be a part of great instructional design. They engage the learner, are interactive, and they enable the learner to get immediate feedback and to demonstrate mastery."

Professor Karl M Kapp
Bloomsberg University

4 elements of games

Engagement

through storytelling
and challenge

Autonomy

Explore, create mystery
and suspense

Mastery

Repeat tricky challenges

Progression

Achievements, scores,
badges and levels

Real Risks & Consequences

Skills & Behaviours

Decision making

Team collaboration

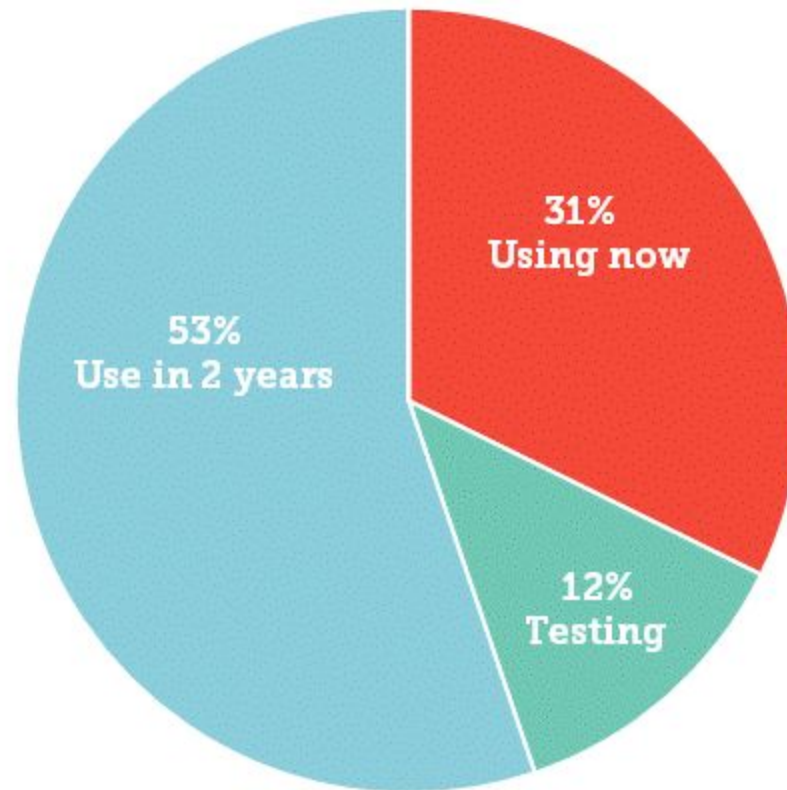

Problem solving

Rules and procedures

Business take up

Towards Maturity data on serious games & simulations

Games in elearning authoring tool

Fire Safety – NHS

Health & Safety – TUI Group

Code of Conduct – Tesco

Compliance – Royal Mail

Also management skills, social media compliance, sales training, product knowledge.

Multi-device world

60%

use 2 devices

Implications for learning

Flexible

Consistent
